- Design
- 3D Renders
- Site Measurements
- Technical Drawings
- Service Drawings
- Installation Schedules

OUR
**INSTALLATION
SCHEDULES** CAN
BE DESIGNED TO
COINCIDE WITH
YOUR **BUILDING**.

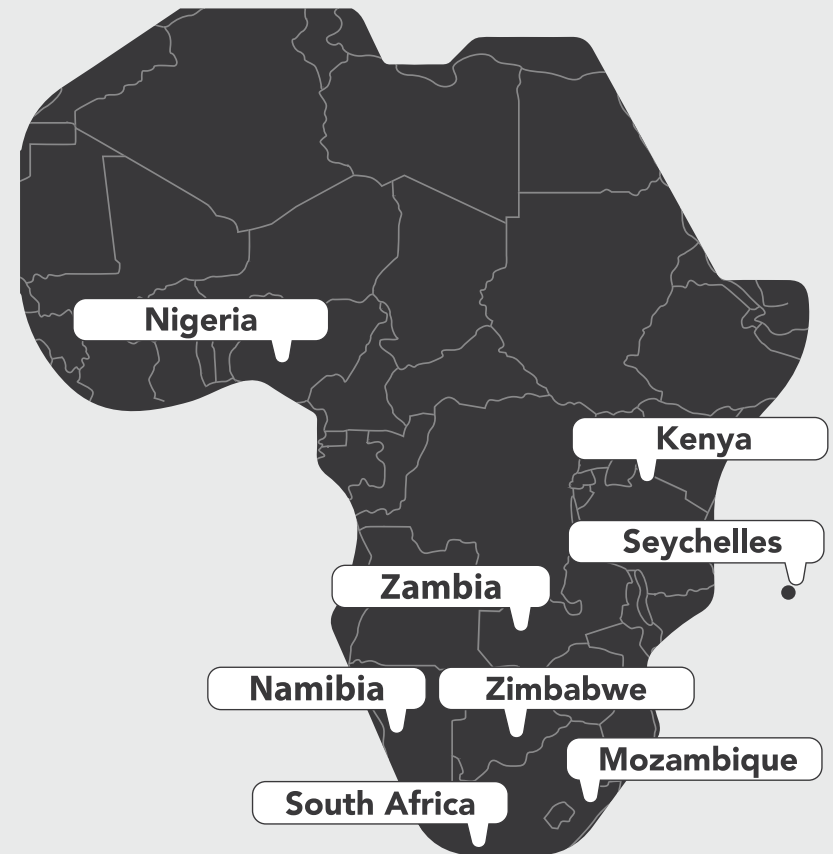

What About Logistics?

With our projects spanning the African continent, we have both the experience and expertise in managing projects both near and far. We have built a team, vehicle fleet and robust process to support this.

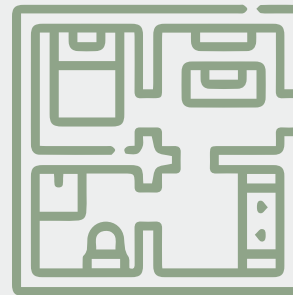

Where Have We Worked?

WHERE TO NEXT?

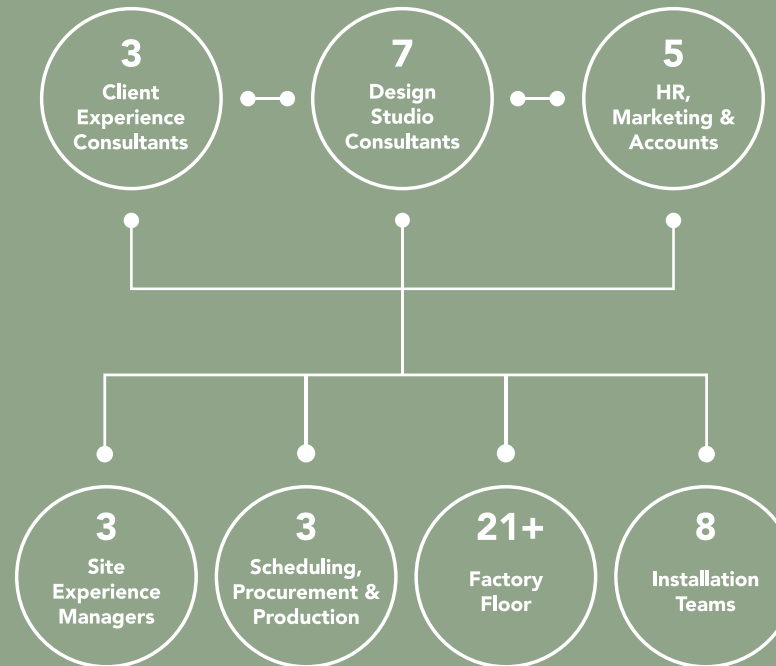

A Turnkey Solution

We aim to be problem solvers in all that we do. We will price and manage each element that falls under our scope such as stone, application, steel, lighting, and upholstery.

The Heart & Soul

Our team is made up of 70 individuals who make it all possible! We have highly skilled, solution-driven individuals at each step of the process.

Our Founder

An industrial engineer by trade, our Co-Founder, Bo Bylin is still hands-on with the everyday operations of Spotlight Joinery.

The Business opened it's doors in 2004 and has grown from strength to strength under his passionate and meticulous vision, with the help of our new Managing Director Marika Bokhorst.

OUR PROCESS

Initial Engagement

Once we embark on an unforgettable journey we set the tone for the mastery that we, as part of The Excellence Group, are known for.

Briefing

We tour the design hub, the factory and our 300m² showroom before going over architectural plans and scope of works.

Design Development

We research trends and seek inspiration for the detailed drawings and realistic renders. We will also explore samples and finishes and draft a costing proposal.

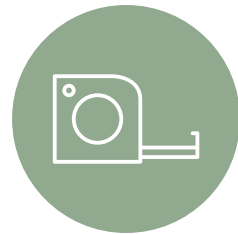

Presentation

We present 3D design development drawings, as well as photo realistic renders. Our video walk-throughs are used to convey the magic.

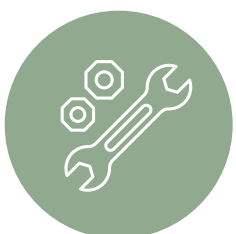

Appointment

With Spotlight Joinery as the appointed experts, project programmes are confirmed and a site analysis is completed.

Final Measurements

We take final measurements and create construction drawings, as well as finalise services. Once signed off, we start manufacturing.

Manufacture

The joinery is manufactured under stringent quality controls. Our site managers visit the site regularly for progress updates.

Installation

Installation teams are on the project prior to delivery. The on-site process is managed closely by the site managers and client consultants.

Snagging

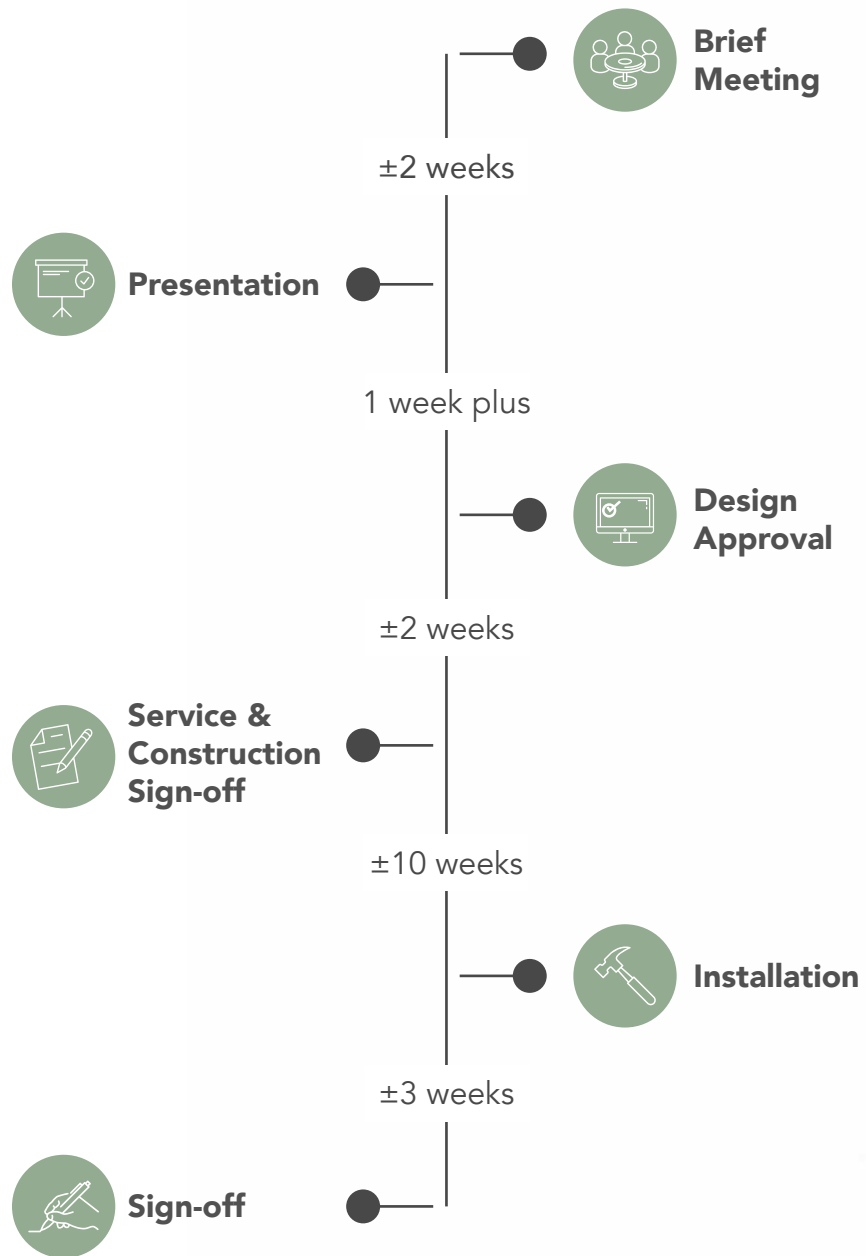

The Joinery installation is analysed and reviewed by the in-house team. We continue until we are confident that both product and installation are of the highest standard.

Client handover

Client experience consultants meet with you to walk you through your joinery investment. We'll show you how to use the hardware and your new appliances.

OUR PROCESS LEAD TIMES

THE EXCELLENCE GROUP

Spotlight Joinery is brought to you by The Excellence Group

The Excellence Group is a collective of owner-run residential interior companies specialising in award-winning design, manufacturing, and project installation. Our portfolio blends premium local and international products—including luxury kitchens, wardrobes, internal joinery, handcrafted timber and upholstered furniture, internal door systems & paneling and a wide range of natural stone and engineered surface applications.

We serve both residential and commercial clients with innovative expertise that transforms visions into reality, guiding projects seamlessly from concept to installation.
