

AN INTRODUCTION TO THE EXCELLENCE GROUP

THE
EXCELLENCE
GROUP

THE **EXCELLENCE** GROUP

The Excellence Group is a collective of owner-run residential interior companies specialising in award-winning design, manufacturing, and project installation. Our portfolio blends premium local and international products—including luxury kitchens, wardrobes, internal joinery, handcrafted timber and upholstered furniture, internal door systems & paneling and a wide range of natural stone and engineered surface applications. We serve both residential and commercial clients with innovative expertise that transforms visions into reality, guiding projects seamlessly from concept to installation.

If you are interested in working with multiple companies for an upcoming project please contact us with the below details. Respective contact details indicated in this brochure.

lualdi

Passion, quality, technological innovation, production flexibility and environmental sustainability underpin the exclusive vision adopted by the company.

At Lualdi, we design bespoke doors, systems, and furnishings for interiors in residential, business, and hotel settings. The company has constantly focused on experimentation and research into the materials and finishes. Over the years, this impressive level of creative and technological experimentation has brought Lualdi into collaborations with some of the world's most influential contemporary architects.

Our Process

01

BRIEF MEETING

Either in person or online, we use this opportunity to gain an indepth understanding of your functional and aesthetic requirements. This will guide us during the costing and design process.

03

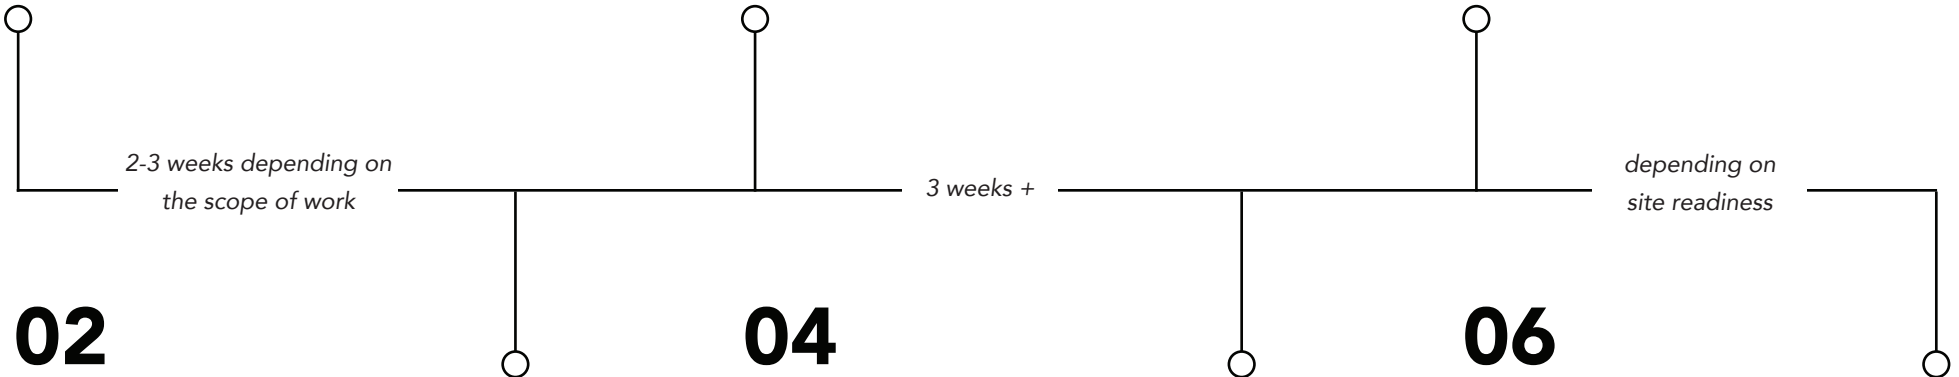

APPOINTMENT

Should our presentation be in line with your expectations and you feel comfortable moving forward with The Excellence Group, we would require a 10% commitment fee based on the estimated value of the project. This will be deducted from your deposit amount once the design development and final costing has been finalised.

05

DEPOSIT PAYMENT

Once the final design and costing has been approved, we require a deposit payment (minus the commitment fee) on joinery and full payment of stone, appliances and sanware in order to secure stock.

02

BUDGET ESTIMATE & DESIGN CONCEPT PRESENTATION

We present our interpretation of your requirements together with a budget estimate. This will include 3D visualisations of the design concept, as well as material specifications. Alternatively, should the architect or interior designer already have a design and specifications in place, we will start off our process with a budget estimate for your approval.

04

DETAILED DESIGN DEVELOPMENT & FINAL COSTING PROPOSAL

The initial presentation to final design sign-off will vary depending on the project and scope. This can range from 3 weeks up to a few months for larger projects.

06

FINAL SITE MEASUREMENTS

Final technical drawings will be based on site measurements taken by our expert site team.

Our Process

07

SERVICES DRAWINGS

For all fitted joinery, full-service drawings will be issued indicating on-site electrical, gas and plumbing requirements. Our team will conduct site visits to ensure that the services are installed correctly and that all dimensions are correct (this only pertains to local projects).

Once an installation date is booked, our final site inspection will be conducted to ensure the site is ready. Ideally design development needs to be complete early on in the build to prevent changes having to be made.

08

TECHNICAL CONSTRUCTION DRAWINGS

You will receive a final set of detailed dimensioned drawings for sign-off prior to manufacturing.

09

MANUFACTURING

Manufacturing lead times will vary between locally manufactured (8-12 weeks) and imported (22-24 weeks) products.

10

INSTALLATION

We plan and coordinate our installation dates closely with your building contractor from the start, in order to ensure that it corresponds with the construction schedule.

11

HANDOVER

As soon as the installation is complete, a formal handover will be arranged with the designer of your project. You will receive a handover package with your warranties and care guides.

8-24 weeks

3-6 weeks
